

# Xtreme 70:1

## Epoxy Sprayer

Output Pressure	180cc
Motor Size	NXT 6500
Maximum Working Pressure	7250 psi
Maximum Air Input	100 psi
Maximum Free Flow Output	8.5gpm

### Features:

High pressure and high fluid flow per cycle increases your production and reduces rod and cylinder wear.

Severe Duty rod and cylinder handles the most abrasive coatings

Simple design makes fluid pump repairs easy

Designed for applications requiring large tip sizes, long hoses and high flow rates

Exclusive air valve design minimizes ice-related downtime

Includes: 2 – 25ft material hoses  
1 – 6ft material whip hose  
1 – XTR-7 Airless Spray Gun
